BUSINESS INTRODUCTION

NTEM

National Tech Electro Mechanic today is one of the most trusted suppliers & leading contractors of Electro mechanical contracting and O&M services in the Sultanate of Oman, UAE and KSA. Trusted by hundreds of clients across the Gulf.

NTEM is an authorized dealer of an independent UAE manufacturer, ITTS. Specialized in power generator systems from 6 kilo WATS up to 2 Megawatts.

We proudly host one of the Sultanate's main Generator hubs as well as the largest modern canopy manufacturing facilities in the UAE, covering an area of 20,000 sq. Meters. Facilities are manufactured under strict international quality control standards.

BUSINESS STRATEGY

MISSION & VISION

- Strengthen confidence between our interlocutors
 - Respect the rules and current laws
 - Professionalism, trustworthiness and good manners
 - Fair competition
 - Growing and consolidating of results
 - Valorization and development of resources
-
- To Provide lifecycle power solution to fulfill the requirements of our customers when it comes to power generation and power solutions while creating better technologies that benefit both the customer and the environment.
 - We will be the most valued business partner for all our customers for supplying and after sale services 24 hours a day, 7 days a week.

4

BUSINESS CONCEPTS & EXPERTISE

EXPERTISE

Different kinds of expertise enter our work daily, in the projects we undertake and services we offer. Stemming from years of dynamism, they inspire our engineers and specialists to install new things and come up with bold solutions to complex problems.

NTEM stands for Power Solution of a higher class which make every Day a special experience. In order to ensure that our clients continue to enjoy their Power output service contracts offer optional carefreeness. Be it the warranty extension or the all-round carefree package: NTEM service contracts offer the right solution for every need and every budget. This frees you from additional workshop costs as unexpected repairs, maintenance or wear parts are already covered, depending on the specific service contract. You therefore don't have to worry about workshop bills and your Generator remains in top condition.

With the service contract you will always receive the best quality – with the service of our qualified workshop specialists and Perkins genuine parts.

EXPERTISE

CONTRACTING

- Power Networks / Overhead transmission lines MV and LV
- Power stations / LV Diesel Generators
- Power Solutions / Power distribution
- Infrastructure / MEP / Street Lights

SERVICES

- Operation, Service, and maintenance for power stations
- Spare parts for Perkins Branded

PRODUCTS

- **Perkins** UK Make RMC Authorized Dealer
- Mobile Generators
- Tower Lights
- Uninterrupted Power Supply GE make
- Low Voltage Panel building
- Synchronizing & Paralleling Systems (DSE Controllers)
- GSM Control and Monitoring System

MOBILE GENERATOR

CONTRACTING

POWER NETWORKS / OVERHEAD TRANSMISSION LINES MV AND LV

- L/V voltage/low voltage generating sets.
- L/V voltage switchgears.
- Step up and/or step down transformers/RMUs

**GENERATOR
CLOSED TYPE**

CONTRACTING

POWER STATIONS / LV DIESEL GENERATORS

- Building of Power Stations turn key projects
- Stand by System for any utility

CONTRACTING

INFRASTRUCTURE / MEP / STREET LIGHTS

- Installing and connecting electrical loads from / to all kinds of power sources.

PRODUCTS

PERKINS, UK MAKE

- Selling Electrical Diesel Generators from 6KW up to 2MW, Perkins Engine with a choice of
 - Leroy Somer Alternators, French make.
 - LINZ Alternators, Italian make.
 - Stamford, UK make.

PRODUCTS

LOW VOLTAGE PANEL BUILDING

- Totalizing Panels
- Dummy Loads
- Load Sharing
- Distribution Panels
- Motor Control Panels
- Motor Control Centers
- Automation Panels
- Automatic Transfer Switches
- Manual Transfer Switches

In accordance with the company's vision based on innovation, quality and partnership, NTEM - Generators expended its areas of expertise into the High Voltage arena by showing and proving its complete readiness to achieve high voltage power stations as complete turn key projects

PRODUCTS

SYNCHRONIZING & PARALLELING SYSTEMS (DSE Controllers)

- Synchronization panels are mainly designed and used to meet power system requirements. These panels provide manual as well as automatic synchronizing function for one or more generator breakers. They are widely used in synchronizing generators and offering multiplexing solutions.
- NTEM is specialized in designing and manufacturing a wide range of LV control Panels using the latest technological advancement in the field of programmable microprocessor control units.
